Message from Director

Dear valued customers and partners.

Iri Factory Vina is very pleased and look forward to cooperating with you all in upcoming projects.

Be the first enterprise pioneering in the field of manufacturing and exporting monofilament nets in the North of Vietnam. Since the establishment we have always doing our best to create and provide high quality products to domestic and oversea customers.

Thank for teams of well-trained personnel, well brands state-of-the-art facilities and technology supported from many years of experience of Korean experts, we confidently meet all global standard requirements from customers.

With the motto "Innovation-Sustainable Development-Prestige", we always make commitments to supply such advanced technology and stable quality products to all customers. Since then a prestigious Iri Factory brand name has been formed in the regional and international markets.

Based on the strength of an enthusiastic, dedicated teams and right business strategy, We strongly believe that Iri Factory Vina will be a leading enterprise in the field of manufacturing and exporting nets and related products in Vietnam and the region.

Director

MR. YOON MYOUNG WOOK

ABOUT US

Iri Factory Vina established in 2019, thanks to the transferred technologies and long history of development from based in Korea of IRI NONGSUSAN JAJAE company. The factory is about 3000 m2 located at Doai Hamlet, Hong Lac Commune, Thanh Ha District, Hai Duong Province, Vietnam.

Being invested standards factories, modern machine lines and facility systems from well-brand suppliers together with advantages of many years of experience of Korean experts, Iri Factory Vina is the first choice of supplying global standards of monofilament nets in Northern Vietnam.

Our professional trained people provide service and support and the ability to be available to meets the clients' requirements in a timely manner.

COMPETITIVENESS

Investing in modern machines, technologies and people to raise production ability and bring the most competitive price to customers.

IRI FACTORY VINA

주식회사 이리농수산자재

VISION - MISSION

Vision

Aiming to be the leader in manufacturing and exporting of monofilament nets in Vietnam and the region.

Mission

Supplying the highest valued and stable quality products with competitive cost to customers in order to promote company and country brands in the global markets.

PRODUCTION LINE

01 MONO-FILAMENT FORMING

The material HDPE, UV... after mixing well will be heated up and melt in the Monofilament extruding machine system, then go through stages of extruding, cooling, stretching, heating, drying and rolling.

02 KNITTING

Thanks to the state of the art waving machines and facilities and many years of experience of Korean experts, we can produce more than 50 different structures of nets, which are light but strong, durable and easy to install with the maximum width are 6 meter.

03 CUTTING

To mesh jumbo bags or leno bags, the nets will be cut based on the specification of products by automatic cutting machine systems that are operated by skilled engineers.

04 SEWING

We put high priority to sewing processes by investing modern machines, sourcing and training people to make quality products that meet standards from our international customers.

05 INSPECTING

Inspection for all finished products will be done carefully about visual checking, specifications checking by experience QC team then separated the good and the defect ones by labels with different color.

06 PACKAGING

Only inspection passed items will be packed following the agreements from clients.

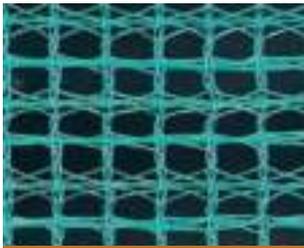

To net on rolls will be packed in small covered by plastic bags with labels.

To mesh jumbo bags will be packed in bale of 50 pcs or 100 pcs covered by plastic bags.
